

JOHNSON

Mrs. Frank Boyce expects to return from the hospital this week.

Mrs. Fred Tillison of Underhill was a guest of her niece, Mrs. Henry Moiles, last week.

Mrs. Lee Tillison of Morrisville was a guest of Mrs. J. W. McGuin the first of the week.

O. B. Landon was called to South Hero Saturday by the death of his cousin, Charles Landon.

Mrs. Geo. Balch is at Mrs. Clara Patten's, stopping with her daughter, who is attending the Normal school.

Miss Helen Bailey, who underwent an operation for appendicitis at the Mary Fletcher Hospital last week, is making a good recovery.

At the Firemen's meeting Saturday night E. E. Balch was elected chief; I. L. Bailey, first assistant and D. B. Smalley, second assistant.

Henry Moiles was in Boston last week and accepted a position as salesman with the firm of Haskell & Adams. Harry Baker takes Moiles' position with E. P. Jose.

The fire department was called out Saturday about one p. m. by flames from the roof of B. A. Hunt's residence, formerly the Waterman house, on Railroad street. Sparks from a bonfire were the cause of the fire, which was quickly extinguished. Water did more damage than the fire.

Tribute to Mrs. J. R. Hill

Mrs. John R. Hill, daughter of Mr. and Mrs. Truman Sawyer, was born in Morrisville, Vt., June 6, 1853, and was one of six children, four of whom are now living. In January, 1873, she united in marriage with Mr. John R. Hill of Johnson. Three children were given to bless the home, Mrs. J. B. Kidder, Swanton, Vt., Morris S. Hill, Johnson, Vt., and Mrs. Arthur Rockwell, Proctor, Vt. She has been out of health for several years, and since last October she has been in the Sherwood Sanatorium, St. Albans, Vt., where she died, April 12, 1915. The funeral was held in her home church, Johnson, April 15, at which her pastor, Rev. F. W. Hazen, officiated.

These are the main facts of her life yet they express but little of the real life of Mrs. Hill. If life is to be measured by unselfish service for others then Mrs. Hill was true to that standard. In the home, the church, and the community she was always the same unselfish servant, companion, or friend. In the community she did much to help its life as when she served on the building committee of the Public Library. In the Church her work was of the greatest helpfulness, especially in the Sunday School, where she was in charge of the Primary Department for about twenty five years. Her deep love for children, and her faithful preparation for her work made her a teacher of rare influence and skill. Again and again during the nine and one-half years that I was her pastor she made me think of Him who took a little child and set him in the midst and said "of such is the kingdom of God." She taught by example as well as by word and what higher praise can be given than that?

In the home she was a wife and mother of high ideals, truest faithfulness, and deep devotion to all that was best and noblest in home life. She never lost that which makes a wife and mother truly great, her fine Christian patience, and her intelligent sympathy and companionship with her children. She gave her life to her home and family and Church. We can say of her as one of old said, "A worthy woman who can find? For her price is far above rubies. The heart of her husband trusteth in her, and he shall have no lack of gain. She doeth him good and not evil all the days of her life. She looketh well to the ways of her household, and eateth not the bread of idleness. Her children rise up and call her blessed; her husband also, and he praiseth her. Grace is deceitful, and beauty is vain; but a woman that feareth the Lord, she shall be praised."

Mrs. Hill was a queenly Christian, and we do not expect others to take her place, because she inspired others to fill their own place in life, and that is better.

—EDWARD G. FRENCH.

HEARD IN MORRISVILLE

How Bad Backs Have Been Made Strong—Kidney Pills Corrected

All over Morrisville you hear it. Doan's Kidney Pills are keeping up the good work. Morrisville people are telling it—telling of bad backs made sound again. You can believe the testimony of your own people. They tell it for the benefit of you who are suffering. If your back aches, if you feel lame, sore and miserable, if the kidneys act too frequently, or passages are painful, scanty and of color, use Doan's Kidney Pills, the remedy that has helped so many of your friends and neighbors. Follow this Morrisville citizen's advice and give Doan's a chance to do the same for you.

B. W. Stewart, Morrisville, says: "I was annoyed by my kidneys and back. I had to get up at night to pass the kidney secretions and they contained sediment. My back ached and was very lame. Doan's Kidney Pills, procured from Cheney's Drug Store, acted as represented and it did not take them long to relieve me."

Price 50 cents at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Stewart had. Foster-Milburn Co., Proprietors, Buffalo, N. Y.

KIDNEY REMEDY THAT ACTS LIKE MAGIC

I have been a terrible sufferer for a number of years with kidney and liver trouble, also nervous prostration and health generally poor, constipation entirely run down until life became a burden. I tried physicians and every available remedy but found no relief. Was induced to give Dr. Kilmer's Swamp-Root a trial, which acted like magic, and am happy to say that I believe I am entirely cured and now as good a man as ever.

I believe it my duty to make this public statement that I may help others who may be suffering from the same trouble. Swamp-Root is without question the greatest remedy in the world. Anyone in doubt of this statement or the authenticity can address me as below.

Yours very truly,

M. H. MCCOY,

State of Ohio
Van Wert County } ss.

The foregoing statement sworn to before me and subscribed in my presence this 18th day of July, 1909, by the said M. H. McCoy.

A. C. GILPIN, Notary Public.

Letter to
Dr. Kilmer & Co.,
Binghamton, N.Y.

Prove What Swamp-Root Will Do For You
Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Morrisville weekly News and Citizen. Regular fifty-cent and one-dollar bottles for sale at all drug stores. adv

STOWE

A. R. Corse has returned from Montpelier.

Mrs. Robert Hill is recovering from the grip.

G. W. Buzzell was a business visitor in Morrisville Monday.

Mr. and Mrs. O. E. Luce were recent visitors in Burlington.

Miss Annie Bigelow attended the funeral of Mrs. R. L. Carrier in Morrisville last Thursday.

Mr. and Mrs. George E. Fowler of Framingham, Mass., are at "The Knoll" for the summer.

Mrs. Lucy Chapin has purchased of E. F. Brink the place she formerly owned on School street.

Ten members of the Cong'l Ladies' Aid Society met with Mrs. Anna Kimball last Wednesday afternoon. Refreshments were served.

Additions to the public library wild flower table are, trailing arbutus, checkerberry and adder tongue lilies, brought in by Everett Backus and Alice Salles.

Mr. and Mrs. George A. Clement, who have carried on the Lookout Farm the past year, will store their goods and make their home with Mrs. Clement's sister and husband, Mr. and Mrs. John Jackman, until they decide upon plans for the future.

Mrs. Abby Warren, who went Saturday from the home of her daughter, Mrs. Henry Lusk, in West Lebanon, N. H., to Salem, Mass., underwent an operation at the Salem hospital Tuesday for cancer in the breast. The operation was a severe one, but a good recovery is expected.

Writings were drawn at the town clerk's office Tuesday for M. R. Perry, executor of the C. O. Jelliff estate, deeding the Lookout Farm to L. E. Soedan. Mr. Soedan is a relative of Oscar Larsen, who purchased the C. C. Robinson farm on the West Branch a year ago, and who was recently joined by Mr. Soedan and other relatives from Sweden.

Following is the program for graduation week at Stowe High School: Sunday, June 6, at 7:30 p. m. at Unity church, sermon to the graduating class by Rev. Lemuel Davis; Monday, June 7, at 8:15 p. m. at the Akeley Memorial Building, Junior class play, "The Variety Coach"; Tuesday, June 8, at 2:30 p. m., class day exercises; at 8:15 p. m. at the Akeley Memorial Building, Junior-Senior reception; Wednesday, June 9, at 2 p. m. at the Akeley Memorial Building; Grammar School graduating exercises; at 8:15 p. m., High School graduating exercises; Thursday, June 10, at 8:30 p. m. at the Akeley Memorial Building, annual school dance; Friday, June 11, at 9 p. m., Alumni reunion and banquet.

FERTILIZERS ARE CHEAPER

and better, if mixed at home according to some good formula. Drop us a postal card and let us tell you how to mix a Fertilizer especially adapted to your needs and explain to you how very simple a matter home mixing is. We will gladly send free postpaid a copy of our Formulas, and if you will tell what you expect to raise we will give you the cost of the ingredients for mixtures suited to your various crops.

Wages For Normal School Graduates

Normal School Graduates, who teach in one room, or two room Rural Schools, will be paid by the State in addition to what each town pays as follows:

1. Graduates of High Schools, who enter the Normal School and take our Higher Two Year Course, are paid four dollars by the State of Vermont, in addition to what any School Board may pay them.

2. Girls who have completed Sophomore Year in High School and have taken a Two Year Course at the Normal School, will be paid three dollars by the State of Vermont, in addition to what any School Board may pay them.

3. Graduates of High Schools, who enter the Normal School and take our Elementary One Year Course, are paid three dollars by the State of Vermont, in addition to what any School Board may pay them.

4. Girls, who have completed Junior Year in High School and spend two years at the Normal School, will be paid three dollars by the State of Vermont, in addition to what any School Board may pay them.

The Phenomenal Growth of the Hyde Park Savings Bank

The fact that the Hyde Park Savings Bank is the largest bank in any country village in the world has come to be the subject of much comment on the part of bank managers, not only in Vermont, but in many of the other states of the Union.

"Can it be true?" and if so, "how can it be accounted for?" are the questions most often raised by those most interested in Savings Banks.

As to the first question—"Can it be true?"—the best answer perhaps is a statement taken from the official records which disclose that the number of depositors and the amount of deposits by five year periods since the organization of the bank in 1889 are as follows:—

Date	Number Depositors	Amount of Deposits
June 30, 1889	400	\$ 55,000
June 30, 1894	1700	351,000
June 30, 1899	2200	584,000
June 30, 1904	2700	666,000
June 30, 1909	4100	1,597,000
June 30, 1914	5300	2,654,000

The second query suggested, to wit: "How can the phenomenal growth of the Hyde Park Bank, as shown by the above statement, be accounted for?" is really a very simple matter. Here is the explanation:

Savings Bank depositors in the aggregate are very shrewd and as a class are an extremely critical body of men. They insist that the safest bank is none too safe for them, and having reached a conclusion in their own minds as to which is the safest, they place their money there.

CONFIDENCE is a plant of slow growth. For the first five years of its existence the Hyde Park Savings Bank grew less than \$300,000 but during the last five years it grew considerably more than a million dollars, as the above table shows.

The managers of the Hyde Park Bank quite naturally take great pride in the position which the bank occupies among the banks of the world and it feels quite justified in soliciting the deposits of those Vermonters who would like to perpetuate this unique distinction now enjoyed by Vermont.

Banking by mail is now regarded as absolutely safe and depositors anywhere can send money to this bank either by personal or bank check, postal or express money order, registered letter or express without the

slightest fear of loss; indeed in the twenty-six years of its existence, not a dollar ever sent to this bank has ever been lost.

The Hyde Park Bank pays four per cent and compounds semi-annually and it pays all taxes.

Any information desired by those contemplating making a deposit in this bank will be cheerfully furnished by addressing the President, Carroll S. Page or the Treasurer, F. M. Culver, Hyde Park, Vermont.—News & Citizen

Try Our Bread . . .

It is made of the best milk and cream that can be procured in Morrisville. The best Flour obtainable is used and it is made by bakers that know how. It is made upon honor, under sanitary conditions, and every loaf is guaranteed to be strictly pure and wholesome.

Incidentally, it is made in Morrisville

Doughnuts. TOO CITY BAKERY

Warning!

Special Belvidere Town Meeting

The legal voters of the town of Belvidere, Vt., are hereby warned and notified to meet in the town house, in said town, on SATURDAY, May 8th, 1915, at 2 o'clock p. m. to transact the following business, to wit:

To see what action the town will take regarding the erection of a new school house at Belvidere Center.

To see if the town will vote to raise any additional tax to build the same.

To do any other business that may properly come before this meeting.

Dated at Belvidere, Vt., this 20th day of April, A. D. 1915.

E. S. CAMPBELL, Selectmen
E. W. POTTER, of
FRANK FLETCHER, Belvidere.

Belvidere Town Clerk's office, April 20th, 1915, at 3 o'clock p. m., received the Warning and recorded the same in Belvidere Town Business Book in Vol. 2, Page 221.

Attest, J. O. THOMAS, Town Clerk.

We hereby certify that we have caused the foregoing Warning to be published in the News and Citizen, a paper of known circulation in the town of Belvidere, two weeks successively prior to said meeting.

E. S. CAMPBELL, Selectmen
E. W. POTTER, of
FRANK FLETCHER, Belvidere.

Belvidere Town Clerk's office, April 20th, 1915, I hereby certify that the foregoing was recorded before being posted, and that the same has been posted in three public places in said town, viz:—At the Town Clerk's office, at Belvidere Center, Vt., at the P. O. at Belvidere Center, Vt., and at the P. O. at Belvidere Corners, Vt.

Attest, J. O. THOMAS, Town Clerk.

Word-of-Mouth Advertising

Passing encomiums, only over your store counter, about the quality of what you've got to sell, results in about as much satisfaction as your wife would get if you gave her a box of cigars for Christmas.

ROOTS AND SILAGE.

Comparison of the Two in Rations For Milk Production.
[Prepared by Ontario Agricultural college.]

In the first place, it may be noted that the Maine, Pennsylvania, Ohio and Ontario experiment stations compared the yield of dry matter per acre from roots and corn. Maine obtained 3,415 pounds of dry matter per acre from Swede turnips and 5,580 pounds from fodder corn. Pennsylvania obtained 4,554 pounds of dry matter per acre from mangels and 6,703 pounds per acre from corn. Ohio 3,900 pounds dry matter per acre from mangels and 6,000 pounds from corn and Ontario 5,034 pounds dry matter from mangels and 8,335 pounds from corn.

So far as yield of dry matter per acre is concerned it will be noted that corn shows a marked advantage over turnips and mangels. By dry matter is meant what is left after all the moisture of the product has been driven off by heat.

The Ohio, Pennsylvania and Vermont stations compared the dry matter of corn silage and roots for milk production. The following, taken from Feeds and Feeding, shows results from these trials:

Milk from a hundred pounds of dry matter in corn silage and root rations: Ohio station, 1889, root ration gave 59 pounds of milk; silage ration gave 62 pounds of milk; Ohio station, 1890, root ration gave 59 pounds of milk; silage ration gave 60 pounds of milk; Ohio station, 1901, root ration gave 62 pounds of milk; silage ration gave 66 pounds of milk; Ohio station, 1892, root ration gave 60 pounds of milk; silage ration gave 76 pounds of milk; Pennsylvania station, root ration gave 57 pounds of milk; silage ration gave 82 pounds of milk; Vermont station, root ration gave 113 pounds of milk; silage ration gave 119 pounds of milk.

From the above results it will be seen that in every case but one the dry matter in the rations containing silage proved more effective in the production of milk than the dry matter in the rations containing roots. It is difficult to explain why such should be the case unless the dry matter in the silage rations was underestimated.

At the central experimental farm of Canada turnips proved more expensive and not much more effective than corn silage for milk production.

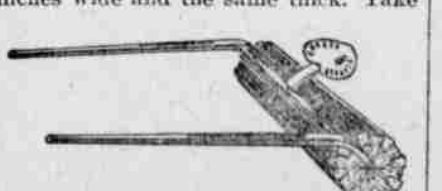

The Cornell station found that one pound of dry matter in mangels is slightly superior to one pound of dry matter in corn silage; also that one pound of dry matter in mangels is equal to one pound of dry matter in grain and that mangels may replace half the grain ordinarily fed in a ration composed of grain, mixed hay and silage.

At the Copenhagen station very extensive trials go to show that one pound of concentrates in the form of grain, bran and oil cake is equal to ten pounds of mangels; also that for cows one pound of dry matter in roots is equal in feeding value to one pound of Indian corn, mixed grains, or three-fourths pound of cottonseed meal. It was also shown that the water content of the milk was not increased by the liberal feeding of roots.

The results of tests quoted above are not exactly uniform, yet they all point to one thing—namely, that for dairy cows the dry matter of roots is not materially different in feeding value from the dry matter in other foods.

A Stalk Cutter.

I think I have mastered the stalk cutter problem, says a contributor to the Southern Agriculturist. Get a good log four feet long and twenty inches through and take the bark off. Go to town and get eight pieces of steel three feet ten inches long and nearly as thin as crosscut saws (old saws serve very well if you can get them); also sixteen pieces of iron rods one and one-half inches wide and the same thick. Take

both rods and steel blades to the shop and have four holes punched in each blade. Then have four more holes punched in the rods to fit twenty penny nails, but have them on the other side, so you can bolt the blades to the rods and then the rods to the roller. To make the shafts, take the crosspiece out of some old wagon shafts and cut same number in each rod, so the holes in the rods will fit those in the blades. Get two iron rods about a foot long and large enough to go through the hole in the end of the shafts. Drive into the roller, fastening the shafts to the roller, and by the time the rod has been driven in eight inches it will be abraded enough to stay in and hold the shafts solid. For a seat use a 2 by 4 crosspiece on the shafts at the crook. Behind the crosspiece or singletree bolt another piece of 2 by 4 about three feet long. Let this reach back over the roller and to it nail your seat. You can sit on the seat and brace your feet against the crosspiece to which it is bolted.

Utilize Potash.

Where the soil is in need of potash it should be applied. In the attempt to meet the need fertilizer manufacturers have agreed to utilize their present supply of potash in the effort to supply fertilizers with at least 2 or 3 per cent of potash next spring. It is believed that a supply sufficient for this purpose is already at hand in this country. In the meantime it is well to take advantage of our own supply of potash in our farmyard manures.

WOMAN COULD NOT SIT UP

Now Does Her Own Work.
Lydia E. Pinkham's Vegetable Compound Helped Her.

Ironton, Ohio.—"I am enjoying better health now than I have for twelve years. When I began to take Lydia E. Pinkham's Vegetable Compound I could not sit up. I had female troubles and was very nervous. I used the remedies a year and I can do my work and for the last eight months I have worked for other women, too. I cannot praise Lydia E. Pinkham's Vegetable Compound enough for I know I never would have been as well if I had not taken it and I recommend it to suffering women."

Daughter Helped Also.
"I gave it to my daughter when she was thirteen years old. She was in school and was a nervous wreck, and could not sleep nights. Now she looks so healthy that even the doctor speaks of it. You can publish this letter if you like."—Mrs. RENA BOWMAN, 161 S. 10th Street, Ironton, Ohio.

Why will women continue to suffer day in and day out and drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

Rheumatism For Young and Old

The acute agonizing pain of rheumatism is soothed at once by Sloan's Liniment. Do not rub—it penetrates to the sore spot, bringing a comfort not dreamed of until tried. Get a bottle today.

RHEUMATISM

Here What Others Say:
"I highly recommend your Liniment as the best remedy for rheumatism I ever used. Before using it I spent large sums of money trying to get relief of the misery and pains in limbs and body, so I tried your Liniment both internal and external and I found quick relief, and now am well and strong again."—Geo. Curtis, 285 N. 15th St., Springfield, Ill.

Here's Proof
"I wish to write and tell you about a fall I had down fourteen steps, and bruised my neck and hip very bad. I could not sleep at all. I sent my wife for a 25 cent bottle of your Liniment and in two days' time I was on my feet again."—Charles Hyde, 1843 1/2 Prairie Ave., St. Louis, Mo.
